Reveal Math eTools

eTools allow you to teach using the online manipulatives as well as letting the students interact along with you! Click below or in a lesson on the toolbox.

You will start with your blank workmat. The tools you use or added will appear on the left.

Next you can add the tools/manipulatives you want to use. Click the plus sign to add a tool.

There are many to choose from. They are specific to grade level.

Using the Highlight/Speaking Tool

Choose highlighting in the menu. The drag across the information you want to remember. It will highlight it yellow and provide the option to read it aloud and you can adjust the speed of the read aloud.

To delete the highlights, click back on the menu.

Printing Pages/Assignments

When a teacher assigns you a page you can print it by cycling on the Let's Go.

To Do			
	Small Group Activity: Estimate Sums and Differences Due: 12/06/2022		
And then click on the little printer on the top right.

Much of Reveal Math is digital, so the activities can be done digitally rather than by printing.

Where are my assignments?

When you login, the front page will have a TO DO list. The assignments are under the To Do spot.

You can choose a tool and a separate work mat opens. Choose the manipulative at the bottom to put on your workmat.

Or you can draw your own tools like a whiteboard.

Click the Digital Station Center.

Choose your grade.
