SELF-ADMINISTRATION: for Inhalant, Enzyme or Epinephrine:

The above named student has demonstrated the ability to self-administer the physician-prescribed emergency medication, as indicated by the following criteria:

1. Respond to and visually recognize his/her name.
2. Identify his/her medication.
3. Demonstrate the proper technique for self-administering his/her medication
4. Knowledge of medication side effects and agrees to report any effects to the Nurse

Do you recommend that the student: Self-administer and carry in school?

YES _____ NO _____

Only carry in school?

YES _____ NO _____

Medications/Doses:

Epinephrine Brand: Auvi-Q ___ Epi-pen ___ Other: _____ **Dose:** 0.15mg ___ 0.3mg ___

Antihistamine: Benadryl ___ Other: _____ **Dose:** 25mg ___ 50mg ___ Other: _____ **Time:** _____

Inhaler-bronchodilator: _____ **Dose and Time:** _____

NUT FREE TABLE OPTION:

- N/A
- NEEDS to be seated at the peanut & nut free table during lunch.
- DOES NOT NEED to be seated at the peanut & nut free table during lunch

Revised Sept 2023

(Physician/Psychiatrist/Dentist and Parent/Guardian)

If your child needs to take medicine in school, prescription or *over-the-counter, the procedure is as follows: The Nazareth Area School District requires a physician's/psychiatrist's/dentist's written order and a parent's/legal guardian's/emancipated student's authorization for the school nurse, or in her/his absence the designee, to administer medications to students in the regular school setting and only in circumstances when the child's health may be jeopardized without it. Written authorization, signed by the physician, psychiatrist, or dentist (original or by fax) and the parent, legal guardian, or emancipated student must be provided for each separate prescription or medication being administered to each student. If dosage is changed, new written authorization is required. Authorization will terminate with the expiration date of the prescription or at the end of the school year, whichever occurs first. If the medication is discontinued, the parent or legal guardian must notify the school nurse in writing. Medication must be delivered to the school nurse by the parent, legal guardian, authorized adult designee or emancipated student in the original medication container. Students are not to have medication in their possession at any time per school district drug and alcohol policy except physician authorized self-administered emergency medications. It will be the responsibility of the parent, legal guardian, or emancipated student to make arrangements for administration of medication during activities away from school. Medication sent to school in violation of this policy will not be administered to a student. **Medication must be in original medication container.**

***See reverse side for medication name, dose, route and frequency**

Medical Statement for Students with Special Dietary Needs

N/A

The following child is a participant in one of the United States Department of Agriculture (USDA) school nutrition programs.

- USDA regulations 7CFR Part 15B require substitutions or modifications in school program meals for children whose disability restricts their diet and is supported by a statement signed by a licensed physician. Food allergies which may result in a severe, life-threatening (anaphylactic) reaction may meet the definition of "disability."
- The school may choose to accommodate a student with a non-disabling special dietary need that is supported by a statement signed by a recognized medical authority (physician, physician assistant or nurse practitioner).
- The school food authority may choose to make a milk substitution available for students with a non-disabling special dietary need, such as milk intolerance or for cultural or religious beliefs. If the school food authority makes these substitutions available, the milk substitute must meet nutrient standards identified in regulations.

Does the student have a disability that requires the student to have a special diet? ____ Yes ____ No

Describe the disability/diagnosis: _____

If student has life threatening allergies, please check when affected: ____ ingestion ____ contact ____ inhalation

If the student is NOT disabled, does he/she have a medically certified special dietary need? ____ Yes ____ No

List Special Diet or Dietary Restrictions: (please be specific regarding foods in their natural form vs. as an ingredient)

Food Allergies or intolerances: (list specific food(s) to be omitted): _____

List Allowable Food Substitutions: _____
