

I Touched the Future 2022

I would like to nominate **Mr. Richard Angstadt** for the **I Touched the Future Award**.

Mr. Angstadt is one of the most outstanding teachers in recent Nazareth High School history. He was a teacher, a mentor, and a coach to many students throughout his long career, including myself, my husband and our daughters.

Mr. Angstadt was an excellent teacher.....able to explain psychology on the students' level and would always be willing to help when students needed it. He was a mentor, taking a personal interest in the well-being of his students and would never hesitate to sit down and listen to their problems. He always made his students feel welcome and cared for. He was the type of teacher that left a positive imprint on all of his students and the type of teacher that every student will remember.
