

# I Touched the Future

## 2020

I would like to recommend **Angela Dincher** for the **I Touched the Future Award**.

I had the privilege of working with Angie for several years prior to her early retirement. She was not only an amazing educator but also a wonderful first grade teammate.

Angie cared so much about her students both academically and personally. Her classes were often composed of the neediest of children, yet she embraced them, and never complained about the extra attention they required.

Angie provided her class with engaging lessons. She spent extra time preparing materials that would motivate her students to learn. She developed a comfortable, caring classroom environment in which they were able to succeed. Her students and their parents loved her as a teacher.

The past several years, when her health started to fail, she continued to apply the same commitment to her children and their families. Many times neither they nor the rest of our staff realized how ill she actually was. She stayed extremely positive, always concerned more about her students than herself.

I would like to see Angie recognized to her selfless acts and the quality education that she provided many students in the Nazareth Area School District.
