

I Touched the Future 2021

I would like to recommend **Janis Bajan** for the
I Touched the Future Award.

Mrs. Bajan taught at Shafer Elementary School for over two decades; she influenced hundreds, if not thousands of students.

As a Nazareth High School teacher for the past 3 years, I have asked students about their elementary school experience, and many have mentioned the impact Mrs. Bajan has had on their lives. They mentioned her kindness, dedication to their learning, and her compassion as leading factors in their fond memories of Shafer and Mrs. Bajan.

Mrs. Bajan always put the students first. I was able to observe her classroom as a college student and saw first-hand the admiration between student and teacher in her classroom.

Janis has touched the future of thousands of students and I cannot think of anyone who would deserve this award more than she does!
