

# I Touched the Future 2021

I would like to recommend **Katie Carson** for the  
**I Touched the Future Award.**

Katie Carson was an exemplary teacher in the Nazareth Area  
School District.

In the 8 years that Katie taught in our district, she instilled a love  
of the German language in countless students. She did this  
through her enthusiasm for the German language and culture  
and also through her passion for teaching.

In 2020, Katie took on the role of a Technology Specialist at the  
Middle School. I can personally attest to her passion for helping  
other teachers in the school. With a patient demeanor, she  
worked with teachers to help them be successful teaching online  
in an unprecedented school year.

Katie was an asset to the district and a pleasure to know.  
She will be incredibly missed, but not forgotten.
