

NAZARETH AREA SCHOOL DISTRICT BUSING INFORMATION IS ONLINE!

In the ongoing effort to improve communication and offer up-to-date information, the Nazareth Area School District Transportation Department will continue to provide busing information to parents, guardians, and students via the PowerSchool Parent Portal.

School busing information is accessible online and linked to a student's PowerSchool record. After setting up an account, parents and guardians may log into the Parent Portal and click the Transportation link to view their child's pick-up and drop-off times, bus number, and bus stop descriptions. Students also have access to their transportation information in their web-based PowerSchool account.

Please contact your child's school to obtain the PowerSchool Parent Portal login information.

Please check your child's transportation schedule for the 2024-2025 school year online. We recommend you review this information for accuracy just before the first day of school to ensure bus numbers and pick-up/drop-off times have not changed based on new enrollments or necessary route changes.

For more information, kindly refer to the Transportation Department page of the Nazareth Area School District website. Here, you will find answers to frequently asked questions, childcare and stop location change request forms, school bus safety guidelines, and additional procedures related to student transportation.

If you have any questions, please contact the Transportation Helpline at 610-759-1170 extension 1177 or Transportation@nazarethasd.org. Thank you!
