

Nazareth Area School District

2021-2022 District Issued Device Insurance Agreement and Deductible Information

The Nazareth Area School District strives to provide all students with an authentic learning experience that engages through technology integration. Students will learn how to communicate, collaborate, and problem-solve using relevant, project-based activities available anytime, anywhere. The NASD provides students the opportunity to use a district-owned **iPad/Chromebook** computer for use during and after school hours. Important information for students using a district-issued device is outlined below.

School District Protection

NASD is self-insuring all District issued computers. The premium for insurance is \$15 per student, which enrolls you in the NASD insurance program. **Due to the ongoing COVID-19 crisis, there will be NO premium for the 2021-2022 school year.** The program affords reduced financial obligation in the event of damage, theft, and loss. Families participating in the Free or Reduced Lunch program will be exempt from the insurance premium of \$15.

Student/Family Responsibilities

- *Due to the ongoing COVID-19 crisis, the insurance premium for the 2021-2022 school year is suspended.*
- Will agree all service and maintenance of the device will be performed only by NASD technicians.
- Will abide by all school district policies regarding technology use (237.2, 815).
- Will agree to the financial obligations for repairs due to damage, theft and loss.
- Will agree to return the device to the district prior to leaving for summer break for routine maintenance and software updates, if required.

Financial Obligation

In the case where a District-issued device or accessory is damaged, i.e. accidents, abuse, neglect, or intentional damage, the student/parent/guardian will be charged a deductible fee for needed repairs, not to exceed the replacement cost of the device. A deductible is charged for each incident and is in addition to the insurance premium payment. Families participating in the Free and Reduced Lunch Program are responsible for any deductibles under this financial obligation. Administration will make the final determination of any fees associated.

The chart on the following page is designed to provide families a better understanding of possible financial obligations. This is not a complete list of possible scenarios:
