CERTIFIED PUBLIC ACCOUNTANTS

Members of  
American Institute of Certified Public Accountants  
Pennsylvania Institute of Certified Public Accountants

Members of the Board  
Nazareth Area School District  
One Education Plaza  
Nazareth, PA 18064-2397

We have performed the Single Audit of the Nazareth Area School District for the fiscal year ended June 30, 2023, and have enclosed the Single Audit reporting package.

The Single Audit was done to fulfill the requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, which entailed:

1. An audit of the basic financial statements, and our opinion thereon;
2. A review of compliance and of internal control over financial reporting based on an audit of the financial statements performed in accordance with Governmental Auditing Standards, and our report thereon;
3. An examination of the Schedule of Expenditures of Federal Awards and our report thereon; and,
4. An opinion on compliance with requirements applicable to each major program, and a review of internal control over compliance in accordance with the Uniformed Guidance, explained above, and our report thereon.

Respectfully submitted,

*Gorman & Associates, P.C.*

### Report on the Financial Statements

#### *Opinions*

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Nazareth Area School District, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Nazareth Area School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Nazareth Area School District, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Nazareth Area School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### *Change in Accounting Principle*

As described in Note 2-G to the financial statements, in 2022-23, the District adopted new accounting guidance, GASB Statement No. 96, SBITA's. Our opinion is not modified with respect to this matter.

#### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Nazareth Area School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Nazareth Area School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Nazareth Area School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 6-16, the schedules associated with the District's Defined Benefit Pension Plan, and the Schedules of the District's OPEB Plans, on pages 84-91, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Nazareth Area School District's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 22, 2023, on our consideration of the Nazareth Area School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Nazareth Area School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Nazareth Area School District's internal control over financial reporting and compliance.

Respectfully submitted,

Northampton, Pennsylvania

**NAZARETH AREA SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS (MDA)  
Required Supplementary Information (RSI)  
For the Year Ended June 30, 2023**

---

The discussion and analysis of Nazareth Area School District's financial performance provide an overall review of the District's financial activities for the fiscal year ending June 30, 2022. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the new reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

***Financial Highlights***

The District's overall financial position, as reflected in total net position, changed by \$10,147,978 due in large part to deferred inflow of resources and the new reporting requirements of GASB Statement No. 75. This statement and its component statement No. 68 have a massive impact on all governments' entity-wide financial statements. It affects every government in the Commonwealth of PA and every other government located in all 50 states, including state governments.

It requires all governments to report the entire amount of the unfunded actuarial liability for any pension/OPEB plans associated with each respective government onto their government-wide financial statements that are used for bond rating agencies to establish our debt ratings. In the past, governments only reported approximately one-thirtieth of this liability on their financial statements assuming they have a stand-alone pension/OPEB plan.

Those governments, like the Nazareth Area School District, that don't report any pension/OPEB obligation because they and we belong to a pension trust (PSERS), now have to report our proportionate share of the pension trust's unfunded actuarial pension liability. Our proportionate share of this significant liability is based up the percentage of our contributions into the plan compared to the total contributions submitted by all participating governments in the pension trust.

Due to the new reporting requirements of GASB Statement No. 68 and 75 the governmental net assets increased by \$9,560,036 and the business-type net position increased by \$598,539.

Program revenues accounted for \$18,527,873 of total revenues, and general revenues accounted for \$89.4 million.

As of October 1, 2023, we have 4,954 pupils enrolled. The District decreased the principal amount of outstanding General Obligation Debt by \$4,305,000 during the 2022-23 fiscal year. This decrease was due in part to normal yearly payments and a one-time debt defeasance of \$2 million during the 2022-23 fiscal year.

**NAZARETH AREA SCHOOL DISTRICT**  
**Management's Discussion and Analysis**

---

In governmental funds, total fund balance increased \$1,046,045. The general fund balance increased by \$3,096,267. This was due to decreased operational costs and receipt of stronger than projected local revenues along with additional state and federal stimulus funds. The capital project fund balance decreased by \$2,042,645 resulting from ongoing capital projects. The general fund reported a positive fund balance of \$31.2 million, or 29 percent of the 2023-24, \$106.6 million operating budget. The 2023-24 operating budget includes a \$200,000 transfer to the capital projects fund. This is funded by a \$200,000 appropriation from the fund balance. In accordance with Board policy, and GASB Statement #54, \$1,239,573 of fund balance is nonspendable for inventory and prepaid expenses, \$328,995 is restricted to scholarships and donation from private sources, \$22.05 million is committed for compensated absences and other post-employment payments under GASB 75. Finally, \$1.2 million is allocated to balance the 23-24 budget and \$6.39 million or 6.0% of the 2023-24 \$106.6 million operating budget is unassigned.

***Overview of the Financial Statements***

This annual report consists of the Management Discussion and Analysis, the basic financial statements, and required supplementary information. These statements are organized so that the reader can understand Nazareth Area School District as an entire entity. The statements then proceed to provide an increasingly detailed look at specific financial activities

The first two statements are government-wide financial statements – the Statement of Net Position and the Statement of Activities. These provide both long-term and short-term information about the District's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the District's operations in more detail than the government-wide statements. The governmental funds statements tell how basic services such as regular and special education were financed in the short-term as well as what remains for future spending. Proprietary fund statements offer short-term and long-term financial information about the activities that the District operates like a business. For this District, this is our Food Service Fund. Fiduciary fund statements provide information about financial relationships where the District acts solely as a trustee or agent for the benefit of others, such as student activity funds and scholarship funds.

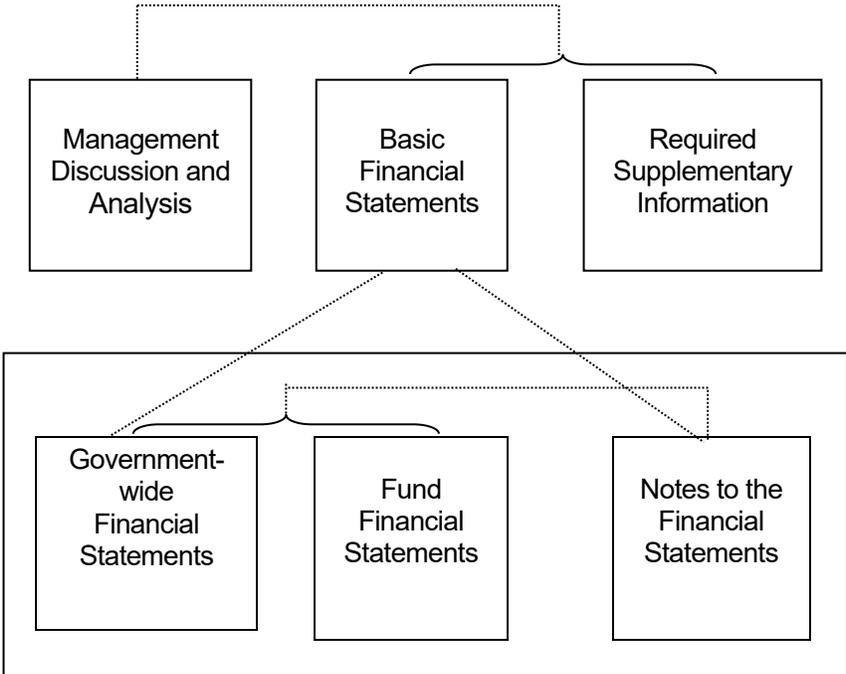

The financial statements also include notes that explain some of the information in the statements, as well as provide more detailed data. The statements also include a statement that further explains and supports the general fund with a comparison of the District's budget for the year.

***Government-wide Statements***

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The government-wide statements report information about the District as a whole using accounting methods similar to those used by the private-sector companies. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net Position, the difference between the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District, you need to consider additional non-financial factors, such as changes in the District's property tax base and the performance of the students.

The government-wide financial statements of the District are divided into two categories:

- **Governmental activities** – All of the District's basic services are included here, such as instruction, administration, and community services. Property taxes and state and federal subsidies and grants finance most of these activities.
- **Business type activities** – The District operates a food service operation and charges fees to staff, students, and visitors to help it cover the costs of the food service operation.

***Fund Financial Statements***

The District's fund financial statements provide detailed information about the most significant funds – not the District as a whole. Some funds are required by state law and by bond requirements.

*Governmental funds* – Most of the District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

*Proprietary funds* – These funds are used to account for the District activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the District charges customers for services it provides – whether to outside customers or to other units in the District – these services are generally reported in proprietary funds. The Food Service Fund is the District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provides more detail and additional information, such as cash flows.

**NAZARETH AREA SCHOOL DISTRICT**  
**Management's Discussion and Analysis**

*Fiduciary funds* -- The District is the trustee, or fiduciary, for some scholarship funds. All of the District's fiduciary activities are reported in combined Statements of Fiduciary Net Position. We exclude these activities from the District's other financial statement because the District cannot use these assets to finance its operations.

Most of the District's net position is invested in capital assets (buildings, land, and equipment). The remaining unrestricted net position is combined of designated and undesignated amounts. The designated balances are amounts set-aside to fund future purchases or capital projects as planned by the district. The significant change in the unrestricted net position is due to the new reporting requirements under GASB Statement No. 68 and 75 which is explained under the Financial Highlights section of the Analysis.

The results of this year's operations as a whole are reported in the Statement of Activities. All expenses are reported in the first column. Specific charges, grants, revenues, and subsidies that directly relate to specific expense categories are represented to determine the final amount of the District's activities that are supported by other general revenues. The two largest general revenues are the Basic Education Subsidy provided by the State of Pennsylvania, and the local taxes assessed to community taxpayers.

***The District Funds***

At June 30, 2023, the District governmental funds reported a combined fund balance of \$41,582,119.

***General Fund Budgetary Highlights***

The General Fund balance increased by \$3,096,267 due in part to expenditures coming in less than budgeted along with higher than anticipated local, state and federal COVID-related stimulus funds. In comparing revenues to expenditures, revenues exceeded expenditures by \$3.8 million minus \$740,113 in other financing sources.

The local tax revenue provides approximately three-fourths of the District's total revenues. These revenues are also the most difficult to budget for because of the current economy and several revenues do not have a consistent trend. The local revenues were \$3.088 million or 4.2% over budget. State funding was \$761,287 or 2.9% over budget. Federal funding was \$618,436 or 61.8% over budget. Finally, sales of fixed assets came in \$2,500 less than budgeted.

***Capital Project Fund:***

The District established this fund for planned capital projects each year and necessary emergencies. These funds will be used for facility projects, vehicle and equipment replacement, and technology projects. The District maintains a five-year plan for facility projects and a five-year plan for technology. These plans are reviewed and updated annually.

This past year, \$1.017 million was transferred to this fund from the general fund to capital reserve fund for future projects. The District is planning to transfer funds from the general fund to this fund annually. We currently have a long-range capital project list of approximately \$20 million for facilities and technology. This list includes new HVAC systems in the District.

**General Fund Budget**

During the fiscal year, the Board of School Directors (The Board) authorizes revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the District. A statement showing the District's original and final budget amounts compared with amounts actually paid and received is provided.

Table A-2 takes the information from the Statement of Activities, rearranges it slightly, so you can see our total revenues for the 2022-23 year. This table also shows a comparative analysis of fiscal year 2022-23 to 2021-22.

**Management's Discussion and Analysis**

Table A-3 shows the District's eight largest functions - instructional programs, instructional student support, administrative, operation and maintenance of plant, pupil transportation, student activities, community services, food service as well as each program's net cost (total cost less revenues generated by the activities). This table also shows the net costs offset by the other unrestricted grants, subsidies and contributions to show the remaining financial needs supported by local taxes and other miscellaneous revenues. This table also shows a comparative analysis of fiscal year 2022-23 to 2021-22.

Reconciliation of the Governmental Funds Balance Sheet  
to the Statement of Net Position  
As of June 30, 2023**

**TOTAL FUND BALANCES - GOVERNMENTAL FUNDS** \$ 41,582,119

**Amounts reported for governmental activities in the statement  
of net position are different because:**

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of the assets is \$192,220,209 and the accumulated depreciation is \$68,278,591. 123,941,618

Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds. 1,043,362

Additional receivables established that do not meet the availability criteria reflected in the fund financial statements. This amount represents the difference between the prior year receivables and the current year receivables established under the accrual basis of accounting. 7,674,389

This represents deferred outflows of resources resulting in deferred charges on refunding prior bond issues. 1,418,532

This represents deferred outflows of resources, net of deferred inflows of resources pertaining to the Net Pension/OPEB Liability. 12,309,166

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. (235,123,800)

**Nazareth Area School District  
Reconciliation of the Governmental Funds  
Statement of Revenues, Expenditures, and Changes in Fund Balance  
to the Statement of Activities  
For the Year Ended June 30, 2023**

**NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS** \$ 1,046,045

Amounts reported for governmental activities in the Statement of  
Activities are different because:

Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Depreciation expense	\$ 4,513,481	
Less - Capital Outlays	<u>3,826,103</u>	(687,378)

In the Statement of Activities, only the gain on the sale of the capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the cost of fixed assets sold. (5,423)

Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred inflows of resources increased by this amount this year. (399,152)

Repayment of bonds, notes, finance purchases, and lease principal are an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. 4,602,056

In the Statement of Activities, certain operating expenses--compensated absences (vacations) and special termination benefits (early retirement)--are measured by the amounts earned during the year. In the governmental funds; however, expenditures for these items are measured by the amount of financial resources used. This amount represents the difference between the amount earned versus the amount used. (202,123)

In the Statement of Activities, certain operating revenues are recognized when earned versus the revenues using the modified accrual basis of accounting in the fund statements that are recognized when the funds are available. As such, the amount shown here represents the difference between earned revenues and revenues that are earned, but not available. 1,013,206

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due. This would include accumulated interest accreted on capital appreciation bonds. The additional interest accrued in the Statement of Activities over the amount due is shown here. 8,645

Bonds, notes, finance purchase and lease proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Refunding bonds, notes, finance purchases, and lease issues become uses of current financial resources in governmental funds, but refundings represent payments of long-term debt in the Statement of Net Position. This figure represents the difference between bonds, notes, finance purchases, and lease proceeds and refunding payments made to paying agents. (277,437)

The difference between current year pension/OPEB expense reported on the governmental activities column of the government-wide financial statements and the pension/OPEB contributions made this past year reported as expenditures in the governmental funds. 4,451,000

**Note 1 - Description of the School District and Reporting Entity**

***School District***

The Nazareth Area School District is located in Northampton County in eastern Pennsylvania, approximately ten miles to the north and west of Easton, the county seat of Northampton County. The School District is comprised of Nazareth, Tatamy, and Stockertown Boroughs, and Bushkill, Lower Nazareth, and Upper Nazareth Townships.

The Nazareth Area School District is a unit established, organized, and empowered by the Commonwealth of Pennsylvania for the express purpose of carrying out, on the local level, the Commonwealth's obligation to public education, as established by the constitution of the Commonwealth and by the School Law Code of the same (Article II; Act 150, July 8, 1968).

As specified under the School Law Code of the Commonwealth of Pennsylvania, this and all other school districts of the state "shall be and hereby are vested as, bodies corporate, with all necessary powers to carry out the provisions of this act." (Article II, Section 211).

***Board of School Directors***

The public school system of the Commonwealth shall be administered by a board of school directors, to be elected or appointed, as hereinafter provided. At each election of school directors, each qualified voter shall be entitled to cast one vote for each school director to be elected.

The Nazareth Area School District is governed by a board of nine School Directors who are residents of the School District and who are elected every two years, on a staggered basis, for a four-year term.

The Board of School Directors has the power and duty to establish, equip, furnish, and maintain a sufficient number of elementary, secondary, and other schools necessary to educate every person, residing in such district, between the ages of six and twenty-one years, who may attend.

In order to establish, enlarge, equip, furnish, operate, and maintain any schools herein provided, or to pay any school indebtedness which the school district is required to pay, or to pay any indebtedness that may at any time hereafter be created by the school district, the board of school directors are vested with all the necessary authority and power annually to levy and collect the necessary taxes required and granted by the legislature, in addition to the annual State appropriation, and are vested with all necessary power and authority to comply with and carry out any or all of the provisions of the Public School Code of 1949.

***Administration***

The Superintendent of Schools shall be the executive officer of the Board of School Directors and, in that capacity shall administer the School District in conformity with Board policies and the School Laws of Pennsylvania. The Superintendent shall be directly responsible to, and therefore appointed by, the Board of School Directors. The Superintendent shall be responsible for the overall administration, supervision, and operation of the School District.

The Business Administrator, recommended by the Superintendent and appointed by the Board of School Directors, shall supervise and coordinate all business aspects of the School District. In this capacity, he or she shall be responsible to insure that all work accomplished by him/her, or by persons under his/her supervision, is in the best interests of the Nazareth Area School District. The Business Administrator is directly responsible to the Superintendent.

***Reporting Entity***

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Nazareth Area School District, this includes general operations, food service, and student related activities of the School District.

Nazareth Area School District is a municipal corporation governed by an elected nine-member board. As required by accounting principles, generally accepted in the United States of America, these financial statements are to present Nazareth Area School District (the primary government) and organizations for which the primary government is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are financially dependent on the School District in that the School District approved the budget, the issuance of debt, or the levying of taxes. The Nazareth Area School District does not have any component units.

***Joint Ventures***

***Career Institute of Technology***

The School District is a participating member of the Career Institute of Technology (CIT). The CIT is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The board of directors of each participating district must approve the CIT's annual operating budget. Each participating district pays a pro-rata share of the CIT's operating costs based on the number of students attending the CIT for each district. The District's share of the CIT's operating costs for 2022-23 was \$1,739,773.

On dissolution of the Career Institute of Technology, the net position of CIT will be shared on a pro-rata basis of each participating district's current market value of taxable real property as certified by the Pennsylvania State Tax Equalization Board; however, the District does not have an equity interest in CIT as defined by GASB Statement No. 14, except a residual interest in the net position upon dissolution that should not be reflected on the basic financial statements. Complete financial statements for the CIT can be obtained from the CIT's administrative office at 5335 Kesslersville Rd., Easton, PA. 18040.

***Northampton Community College***

The District is a participating member of the Northampton Community College (NCC). The NCC is run by a Board of Trustees elected by the participating member districts' boards of directors. No participating district appoints a majority of the Board of Trustees. A vote of two-thirds of all member districts shall be required for approval of the NCC's annual operating budget. The amount of the annual operating costs of the NCC shall be apportioned among the member districts on the basis of the number of full-time equivalent students enrolled in NCC and residing in the respective geographical areas of each of the member districts. The District's share of NCC's operating costs for 2022-23 was \$708,954.

On dissolution of the Northampton Community College, the net position of NCC will be shared on a pro-rata basis of each member district's current market value of taxable real property as certified by the Pennsylvania State Tax Equalization Board; however, the District does not have an equity interest in NCC as defined by GASB Statement No. 14, except a residual interest in the net position upon dissolution that should not be reflected on the basic financial statements. Complete financial statements for the NCC can be obtained from the NCC's administrative office at 3835 Green Pond Rd., Bethlehem, PA 18020.

***Jointly Governed Organizations***

*Colonial Intermediate Unit*

The School District is a participating member of the Colonial Intermediate Unit (CIU). The CIU is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The board of directors of each participating district must approve the CIU's annual operating budget. The CIU is a self-sustaining organization that provides services for fees to participating districts. As such, the District has no on-going financial interest or financial responsibility in the CIU. The CIU contracts with participating districts to supply special education services, computer services, and acts as a conduit for certain federal programs.

**Note 2 - Summary of Significant Accounting Policies**

The financial statements of the District have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. On June 15, 1987, the GASB issued a codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The more significant of these accounting policies are described below and, where appropriate, subsequent pronouncements will be referenced. GASB Statement No. 62 was issued to include all prior Financial Accounting Standards Board's statements and interpretations, along with predecessors' statements and interpretations pertaining to governments into the hierarchy of the Governmental Accounting Standards Board's jurisdiction.

**A. Basis of Presentation**

The School District's basic financial statements consist of government-wide statements, including a statement of net position, a statement of activities, and fund financial statements which provide a more detailed level of financial information.

**Government-wide Financial Statements** The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities and for one business-type activity of the School District. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business activity or governmental function is self-financing or draws from the general revenues of the School District.

**Fund Financial Statements** During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The fiduciary funds are reported by type.

**B. Fund Accounting**

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

**Governmental Funds** Governmental funds are those through which most governmental functions typically are financed. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Deferred outflows of resources is recorded in a particular governmental fund where costs are spent for a future period. Current Liabilities are assigned to the governmental fund from which they will be paid. Deferred inflows of resources is recorded in a particular governmental fund that has received resources for a future period. The difference between the sum of assets and deferred outflows of resources minus the sum of liabilities and deferred inflows of resources is reported as fund balance. The following are the School District's major governmental funds:

**General Fund**

The general fund should be used to account for and report all financial resources not accounted for and reported in another fund.

**Special Revenue Fund**

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The term proceeds of specific revenue sources establish that one or more specific restricted or committed revenues should be the foundation for a special revenue fund. The restricted or committed proceeds of specific revenue sources should be expected to continue to comprise a substantial portion of the inflows reported in the fund. Other resources also may be reported in the fund if those resources are restricted, committed, or assigned to the specified purpose of the fund.

Under this definition, the District does not have any special revenue funds.

**Capital Projects Fund**

Capital project funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital project funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments. The District has the following Capital Project Funds:

*2017 Capital Project Fund*

This fund was created in part to undertake certain capital improvements consisting of constructing, renovating, maintain and upgrading of HVAC systems, roofs, turf fields, and various capital projects with the issuance of \$13,455,000 and \$9,995,000 in General Obligation Bonds – Series E of 2017 and Series of 2018, respectively.

*2019 Capital Project Fund*

This fund was created in part to undertake certain capital improvements projects consisting of renovations, alterations, additions, improvements, furnishing and equipment to the District's facilities and grounds with the issuance of \$5,260,000 in General Obligation Bonds Series A of 2019.

**Nazareth Area School District**  
**Notes To Basic Financial Statements**  
**Fiscal Year Ended June 30, 2023**

---

*Capital Reserve Fund*

This fund was created in accordance with Section 1432 of the Municipal Code. The Municipal Code restricts how the resources are spent within this fund.

**Debt Service Fund**

Debt Service Fund(s) account for resources accumulated to provide for payment of general long-term debt principal and interest. The Pennsylvania Local Government unit Debt Act authorized Pennsylvania public Schools to maintain this fund. The District has the following Debt Service Fund(s):

*2022A Debt Service Fund*

This fund was created with the issuance of General Obligation Bonds Series A of 2022 to record the transactions of the refunding the General Obligation Bonds Series D of 2017.

**Proprietary Funds** Proprietary funds focus on the determination of changes in net position, financial position, and cash flows and are classified as enterprise funds. The Proprietary Funds of the School District have operating and nonoperating revenues and/or expenses. Transactions for which cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities are reported as non-operating revenues and/or expenses, including subsidies received from the state and federal government for school lunches, donated commodities, and amounts received for FICA and retirement subsidies. Operating revenues reported are consistent with the fees or charges incurred based on the intent of the individual proprietary fund.

**Enterprise Funds**

Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The School District's major enterprise fund is:

*Food Service Fund*

This fund accounts for the financial transactions related to the food service operations of the School District.

**Fiduciary Funds** Fiduciary funds reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: Pension (and other employee benefit) trust funds, Investment trust funds, Private-purpose trust funds and Custodial funds. The School District has four Fiduciary Funds:

*Student Activity Funds*

These funds are considered custodial funds and are reported as such in the Statement of Net Position Fiduciary Funds and the Statement of Changes in Fiduciary Net Position. Custodial funds are used to report fiduciary activities that are not required to be reported in one of the other three Fiduciary fund types.

**C. Measurement Focus**

**Government-wide Financial Statements** The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of the District are included on the statement of net position.

**Fund Financial Statements** All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet, along with deferred outflows of resources or deferred inflows of resources required to be reported. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds. Like the government-wide statements, all enterprise funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities, including required deferred outflows of resources or required deferred inflows of resources, associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses, and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its enterprise activities.

**D. Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

**Revenues - Exchange and Non-Exchange Transactions.** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

**E. Budgetary Process**

An operating budget is adopted prior to the beginning of each year for the General Fund on the modified accrual basis of accounting. The General Fund is the only fund for which a budget is legally required.

**Nazareth Area School District  
Notes To Basic Financial Statements  
Fiscal Year Ended June 30, 2023**

---

In accordance with Act 1 of 2006, the Board shall annually, but not later than the first business meeting of January, decide the budget option to be used for the following fiscal year. The Board shall approve either the Accelerated Budget Process Option or the Board Resolution Option.

***Accelerated Budget Process Option***

Under this option, a preliminary budget must be prepared 150 days prior to the primary election. Under this Option, the preliminary budget must be available for public inspection at least 110 days prior to the primary election. The Board shall give public notice of its intent to adopt the preliminary budget at least 10 days prior to the adoption. The adoption must occur at least 90 days prior to the primary election.

If the preliminary budget exceeds the increase authorized by the Index, an application for an exception may be filed with either a Court of Common Pleas with jurisdiction or PDE and made available for public inspection. The Board may opt to forego applying for an exception by submitting a referendum question seeking voter approval for a tax increase, in accordance with Act 1.

The final budget shall include any necessary changes from the adopted preliminary budget. Any reduction required as the result of the failure of referendum shall be clearly stated. The final budget shall be made available for public inspection at least 20 days prior to final adoption. The Board shall annually adopt the final budget by a majority vote of all members of the Board prior to June 30.

***Board Resolution Option***

Under the Board Resolution Option, the Board shall adopt a resolution that it will not raise the rate of any tax for the following fiscal year by more than the Index. Such resolution shall be adopted no later than 110 days prior to the primary election. At least 30 days prior to adoption of the final budget the Board shall prepare a proposed budget. The proposed budget shall be available for public inspection at least 20 days prior to adoption of the budget. The Board shall give public notice of its intent to adopt at least 10 days prior to adoption of the proposed budget. The Board shall annually adopt the final budget by a majority vote of all members of the Board by June 30.

Legal budgetary control is maintained at the sub-function/major object level. The PA School Code allows the School Board to make budgetary transfers between major function and major object codes only within the last nine months of the fiscal year, unless there is a two-thirds majority of the Board approving the transfer. Appropriations lapse at the end of the fiscal period. Budgetary information reflected in the financial statements is presented at or below the level of budgetary control and includes the effect of approved budget amendments.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the PDE 2028 when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all 2022-23 budget transfers.

***F. Use of Estimates***

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

***G. Changes in Accounting Principles***

During the 2022-23 fiscal year the School District implemented the following new generally accepted accounting principles:

GASB Statement No. 81 (Conduit Debt Obligations). The objective of this Statement is to provide a single method of reporting conduit debt obligations by issuers associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures.

**Nazareth Area School District**  
**Notes To Basic Financial Statements**

GASB Statement No. 94 (PPP's). The objectives of this Statement are to improve financial reporting related to public-private and public-public partnership arrangements (PPPs). A PPP is defined in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement.

GASB Statement No. 96 (SBITA's). - This Statement provided guidance on accounting and financial reporting for subscription-based information technology arrangements (SBITAs). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to use subscription asset – and intangible asset – and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA.

GASB Statement No. 99 (Omnibus 2022). The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees.

#### **H. Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System and additions to/deductions from the Public School Employees' Retirement System's fiduciary net position have been determined on the same basis as they are reported by the Public School Employees' Retirement System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### **I. Other Postemployment Benefits**

##### *Multiple Employer Cost Sharing OPEB Plan*

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

##### *Single Employer OPEB Plan*

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information was obtained from the Actuary Report conducted by Conrad Siegel. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. The single employer plan is not funded.

---

**J. Assets, Liabilities, and Net Position**

*Cash and Cash Equivalents*

For purposes of the Statement of Cash Flows, the Proprietary Fund type considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents.

*Investments*

In accordance to GASB Statement No. 72, investments generally are to be measured at fair value. An investment is defined as a security or other asset that (a) a government holds primarily for the purpose of income or profit and (b) has the present service capacity based solely on its ability to generate cash or to be sold to generate cash. Investments not measured at fair value continue to include, for example, money market investments, 2a7-like external investment pools, investments in life insurance contracts, common stock meeting the criteria for applying the equity method, unallocated insurance contracts, and synthetic guaranteed investment contracts.

A government is permitted in certain circumstances to establish the fair value of an investment that does not have a readily determinable fair value by using the net asset value per share of the investment.

This Statement requires measurement at acquisition value (an entry price) for donated capital assets, donated works of art, historical treasures, and similar assets. These assets were previously required to be measured at fair value.

Fair Value is measured using a hierarchy of inputs using valuation techniques. The hierarchy has three levels. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are inputs, other than quoted prices, that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs.

The valuation techniques should be consistent with one or more of the following approaches: the market approach, the cost approach, or the income approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The cost approach reflects the amount that would be required to replace the present service capacity of an asset. The income approach converts future amounts (such as cash flows or income and expenses) to a single current (discounted) amount.

*Receivables and Payables*

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

*Property Tax Levy*

Property taxes, which were levied during the fiscal year ended June 30, 2023, are recognized as revenue in the fund financial statements when received by the District during the fiscal year and also estimated to be received by the District within sixty (60) days after the fiscal year ended.

Property taxes that were levied during the current fiscal year, which are not estimated to be received within sixty (60) days after the fiscal year-end, are recorded as receivable and deferred inflows of resources in the fund financial statements.

**Nazareth Area School District  
Notes To Basic Financial Statements  
Fiscal Year Ended June 30, 2023**

---

In the government-wide financial statements, all property taxes levied during the fiscal year are recognized as revenue, net of estimated uncollectible amount.

*Inventories*

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis, and are expensed when used. A physical inventory taken at June 30, 2023 reflects \$111,874 in the governmental activities column and \$113,695 in the business-type activities column.

Inventory type items in governmental funds utilize the consumption method, that is, they are charged to expenditures when used. A physical inventory was taken as of June 30, 2023; therefore, there is \$111,874 of inventory and nonspendable fund balance in the General Fund.

Inventory type items in Proprietary Funds use the consumption method, in which items are purchased for inventory and charged to expenses when used. The only Proprietary Fund of the District is the Food Service Fund. Inventory within this fund consists of donated commodities, which are valued at U.S.D.A.'s approximate costs, and purchased food.

Inventories on hand at June 30, 2023, consist of:

Purchased Food	\$ 88,910
Donated Commodities	<u>24,785</u>
<b>TOTAL</b>	<b><u>\$ 113,695</u></b>

*Prepaid Expenses*

In both the government-wide and fund financial statements, prepaid expenses are recorded as assets in the specific governmental fund in which future benefits will be derived.

*Capital Assets*

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their acquisition values as of the date received. The School District maintains a capitalization threshold of two thousand-five hundred (\$2,500) dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets utilized by the enterprise funds is also capitalized.

**Nazareth Area School District  
Notes To Basic Financial Statements  
Fiscal Year Ended June 30, 2023**

---

All reported capital assets except land, certain land improvements, and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following useful lives:

<b>Description</b>	<b>Governmental Activities Estimated Lives</b>	<b>Business-Type Activities Estimated Lives</b>
Site Improvements	10-20 years	10-20 years
Buildings and Improvements	20 - 50 years	20 - 50 years
Furniture and Equipment	5 - 20 years	5 - 20 years
Right -to-use-Equipment	Length of Lease	Length of Lease

*Compensated Absences*

The School District reports compensated absences in accordance with the provisions of GASB No. 16 (Accounting for Compensated Absences). Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. In enterprise funds, the entire amount of compensated absences is reported as a fund liability.

*Leases*

Lessee:

The District is a lessee for a noncancellable lease of equipment. The District recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The District recognizes lease liabilities with an initial, individual value of \$20,000 or more.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.

**Nazareth Area School District**  
**Notes To Basic Financial Statements**  
**Fiscal Year Ended June 30, 2023**

---

- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability. Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

Lessor:

At the commencement of a lease, the District initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The District uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The District monitors changes in circumstances that would require a remeasurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

*SBITAs (Subscription Based Information Technology Arrangements)*

Occasionally the District enters into Subscription-Based Information Technology Arrangements. These arrangements grant the District the right to access use of software that is hosted by third-party vendors over a specified contract term. Unlike traditional software, the District does not take physical possession of or have the right to control the software; instead, it accesses the uses the software remotely.

In the entity-wide financial statements, SBITAs are reported as intangible assets based on the present value of future subscription payments to be made over the life of the arrangement. Correspondingly, a liability is recognized for the future payments, and it is amortized over the life of the SBITA. The amortization expense related to the intangible asset and any interest expense associated with the recognized liability are reported in the Statement of Activities.

In the fund financial statements, under the modified accrual basis of accounting, expenditures are recognized for SBITA payments when they are due. Therefore, no intangible asset or corresponding liability is reported in the governmental fund statements. The expenditures related to SBITA payments are recognized in the fund's Statement of Revenues, Expenditures, and Changes in Fund Balances in the period they payment is due.

**Nazareth Area School District**  
**Notes To Basic Financial Statements**  
**Fiscal Year Ended June 30, 2023**

---

*Other Long-Term Obligations*

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position. Bond premiums and discounts, and deferred amounts on refundings are deferred and amortized over the life of the bonds using modification of the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Any deferred amount on refundings are reported as deferred outflows of resources and amortized over the life of the bond issue. Bond issuance costs are expensed in the year they are incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts and premiums on debt issuances are reported as other financing uses and other financing sources, respectively. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as support service expenditures.

*Reclassification*

Certain amounts have been reclassified to conform to the June 30, 2023, presentation of government-wide financial statements on the accrual basis of accounting versus the governmental fund financial statements reported on the modified accrual basis of accounting.

*Net Position*

Net Position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net Investment in Capital Assets component of Net Position is comprised of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. In addition, any deferred outflows of resources and/or deferred inflows of resources related to such capital assets or liabilities associated with the capital assets should also be added to or deducted from the overall Net Investment in Capital Assets. The restricted component of Net Position is used when there are limitations imposed on their use either through the enabling legislation adopted by a higher governmental authority or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The remaining component of Net Position is unrestricted.

The School District applies restricted resources first when an expense is incurred for purposes for which both the restricted and unrestricted components of net position are available.

*Fund Balance Categories*

Fund balance for governmental funds should be reported in classifications that compromise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Below are the potential categories of fund balance the government may use with their definitions, the actual categories used is explained in Note 7 to the financial statements.

*Nonspendable Fund Balance*

This category includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

**Nazareth Area School District  
Notes To Basic Financial Statements  
Fiscal Year Ended June 30, 2023**

---

*Restricted Fund Balance*

Fund balance should be reported as restricted when constraints placed on the use of resources are externally imposed by creditors, grantors, contributors, or other governmental laws or regulations, or the constraint is imposed by enabling legislation or constitutional provisions.

*Committed Fund Balance*

This category pertains to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. The committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action.

This government's governing body is the School Board and the formal action taken to commit resources is done by resolution.

*Assigned Fund Balance*

This category includes all remaining amounts that are reported in governmental funds, except the general fund, that are not classified in one of the above-mentioned categories.

In the general fund, this category represents the District's intent to use resources for a specific purpose, which does not require formal action by the governing body. The District's policy dictates the Superintendent or his/her designee is responsible to make these assignments.

*Unassigned Fund Balance*

This category of fund balance represents the residual classification for the general fund after segregating resources used in the other categories listed above. Unassigned fund balance will only be shown in other governmental funds if those governmental funds have a negative net fund balance.

The District's policy on fund balance does not dictate which category of unrestricted fund balance is spent first, when resources are available to be spent in various categories. As such, committed amounts will be reduced first, followed by assigned amounts, and then unassigned amounts. The District's policy also does not dictate whether restricted (nonspendable or restricted) or unrestricted (committed, assigned, and unassigned) is spent first when resources are available in both categories. As such, in these circumstances, restricted will be assumed to have been spent first followed by the unrestricted categories.

Contributions of capital in proprietary fund financial statements arise from outside contributions of fixed assets, or from grants or outside contributions of resources restricted to capital acquisition and construction. The proprietary funds did not receive any contributions during this fiscal year.

**Note 3 - Reconciliation of Government-Wide and Fund Financial Statements**

**A. *Explanation of Certain Differences between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position.***

The governmental fund balance sheet includes reconciliation between "fund balance - total governmental funds" and "net position - governmental activities" as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds".

***B. Explanation of Differences between Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the Statement of Activities***

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and district-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. Differences between the governmental funds statement of revenues, expenditures, and changes in fund balance and the statement of activities fall into one of three broad categories. The amounts shown in the columns on the following page represent:

- a) Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the statement of activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis whereas the accrual basis of accounting is used on the statement of activities. The long-term expenses reported below recognize the change in vested employee benefits.
- b) Capital related differences include (1) the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities, and (2) the difference between recording an expenditure for the purchase of capital items in the governmental fund statements, and capitalization and recording of depreciation expense on those items as recorded in the statement of activities.
- c) Long-term debt transaction differences occur because long-term debt proceeds are recorded as revenue and both interest and principal payments are recorded as expenditures in the governmental fund statements. In the statement of activities, long-term debt proceeds are recorded as a liability; principal payments are recorded as a reduction of liabilities.

**Note 4 - Stewardship, Compliance, and Accountability**

**A. Compliance with Finance Related Legal and Contractual Provisions**

The District has no material violations of finance related legal and contractual provisions.

**B. Deficit Fund Balance or Net Position of Individual Funds**

No individual fund contains a deficit fund balance or net position at June 30, 2023, except the governmental activities and business-type activities (Food Service Fund) have \$47,154,614 and \$466,692 deficits, respectively.

**C. Excess of Expenditures over Appropriations in Individual Funds**

The General Fund, which is the only fund with a legally adopted budget, did not have an excess of expenditures over appropriations.

**Nazareth Area School District  
Notes To Basic Financial Statements  
Fiscal Year Ended June 30, 2023**

---

**D. Budgetary Compliance**

The District's only legally adopted budget is for the General Fund. All budgetary transfers were made within the last nine months of the fiscal year. The District cancels all purchase orders open at year-end; therefore, it does not have any outstanding encumbrances at June 30, 2023. In addition, the District includes a portion of the prior year's fund balance represented by unappropriated liquid assets remaining in the fund as budgeted revenue in the succeeding year. The results of operations on a GAAP basis do not recognize the fund balance allocation as revenue as it represents prior period's excess of revenues over expenditures.

*Investments*

Permitted investments for Nazareth Area School District are defined in the Public School Code of 1949, as amended by Act 10 of 2016 as:

1. United States Treasury Bills;
2. Short-term obligations of the United States Government or its agencies or instrumentalities;
3. Deposits in savings accounts or time deposits or share accounts of institutions insured by the F.D.I.C; and,
4. Obligations of the United States of America or any of its agencies or instrumentalities, the Commonwealth of Pennsylvania or any of its agencies or instrumentalities or any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities.
5. Obligations, participations or other instruments of any Federal Agency, instrumentality or United States government sponsored enterprise, including those issued or fully guaranteed as the principal and interest by Federal agencies, instrumentalities or United States government sponsored enterprises, if the debt obligations are rated at least "A" or its equivalent by at least two nationally recognized statistical ratings organizations.
6. Repurchase agreements with respect to United States Treasury bills or obligations, participations or other instruments of or guaranteed by the United States or any Federal agency, instrumentality or United States government sponsored enterprise.
7. Negotiable certificates of deposit or other evidences of deposit, with a remaining maturity of three years or less, issued by a nationally or State-chartered bank, a Federal or State savings and loan association or a State-licensed branch of a foreign bank. For obligations with a maturity of one year or less, the debt obligations of the issuing institution or its parent must be rated in the top short-term rating category by at least two nationally recognized statistical ratings organizations. For obligations with a maturity in excess of one year, the senior debt obligations of the issuing institution or its parent must be rated at least "A" or its equivalent by at least two nationally recognized statistical ratings organizations.
8. Bills of exchange or time drafts drawn on and accepted by a commercial bank, otherwise known as bankers' acceptances, if the bankers' acceptances do not exceed 180 days maturity and the accepting bank is rated in the top short-term category by at least two nationally recognized statistical ratings organizations.
9. Commercial paper issued by corporations or other business entities organized in accordance with Federal or State law, with a maturity not to exceed 270 days, if the paper is rated in the top short-term category by at least two nationally recognized statistical ratings organizations.
10. Shares of an investment company registered under the Investment Company Act of 1940, whose shares are registered under the Securities Act of 1933 and, if all of the following conditions are met:
  - The investments of the company are the authorized investments listed above.
  - The investment company is managed in accordance with 17 CFR 270.2a-7 (related to money market funds.
  - The investment company is rated in the highest category by a nationally recognized rating agency.

**Nazareth Area School District  
Notes To Basic Financial Statements

11. Savings or demand deposits placed in accordance with the following conditions:

- The money is initially deposited and invested through a federally insured institution having a place of business in this Commonwealth, which is selected by the public corporation or municipal authority.
- The selected institution arranges for the redeposit of the money in savings or demand deposits in one or more financial institutions insured by the Federal Deposit Insurance Corporation, for the account of the public corporation or municipal authority.
- The full amount of principal and any accrued interest of each such deposit is insured by the Federal Deposit Insurance Corporation.
- On the same date that the money is redeposited pursuant to above, the selected institution receives an amount of deposits from customers of other financial institutions equal to or greater than the amount of money initially invested through the selected institution by the public corporation or municipal authority.

As of June 30, 2023, the District had the following investments:

<i>Investment</i>	<b>Maturities</b>	<b>Fair Value</b>
PA Local Government Investment Trust	N/A	\$ 40,552,732
PA School District Liquid Asset Fund	N/A	4,492,430
Fulton	N/A	422,279
<b>TOTAL</b>		<b>\$ 45,467,441</b>

*Interest Rate Risk*

The District does have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

*Credit Risk*

The District has no investment policy that would limit its investment choices to certain credit ratings. As of June 30, 2023, the District's investment in the Pa. School Liquid Asset Fund was rated AAAM by Standard & Poor's. The District's investment in Pa. Local Government Investment Trust was rated AAAM by Standard & Poor's.

*Concentration of Credit Risk*

The District places no limit on the amount the District may invest in any one issuer. As of June 30, 2023, the District did not hold any investments which would subject itself to the concentration of credit risk.

*Custodial Credit Risk*

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The District has no investments subject to custodial credit risk.

***Fair Value Reporting***

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The District did not have any recurring fair value investments at June 30, 2023. The District did have Cash Equivalents in 2a7-like external investment pools, which GASB Statement No. 72 allows to be recorded at amortized cost as provided in paragraph 16 of GASB Statement No. 31.

***Property Taxes***

Property taxes are levied on July 1, on the assessed value listed, as of that date, for all taxable real property located in the District. Assessed values are established by the County Board of Assessments. All taxable real property was assessed at \$1,141,660,600. In accordance with Act 1 of 2006, the District received \$2,020,502 in property tax reduction funds for the 2022-23 fiscal year. The tax rate for the year was \$5.6800 per \$100 of assessed valuation or 56.800 mills.

The property tax calendar is:

- |                            |   |   |
|----------------------------|---|---|
| July 1                     | - | Full year tax assessed for current year.  |
| July 1 - September 11      | - | Discount period during which a 2% discount is allowed.  |
| September 12 - November 11 | - | Face amount of tax is due.  |
| November 12 - February 11  | - | A 10% penalty is added to all payments.   |
| April 24                   | - | All unpaid taxes become delinquent and are turned over to the County Tax Claim Bureau for collection. |

The School District, in accordance with GAAP, recognized the delinquent and unpaid taxes receivable reduced by an allowance for uncollectible taxes as determined by the administration. A portion of the net amount estimated to be collectible, which was measurable and available within 60 days, was recognized as revenue and the balance deferred in the fund financial statements.

**Commitments**

*Encumbrances*

Any encumbrances outstanding at year-end do not represent GAAP expenditures or liabilities, but represent budgetary accounting controls. The General Fund Budget is maintained on the modified accrual basis of accounting, except that budgetary basis expenditures include any encumbrances issued for goods or services not received at year-end and not terminated.

The actual results of operations are presented in accordance with GAAP and the District's accounting policies do not recognize encumbrances as expenditures until the period in which the goods or services are actually received and a liability is incurred. If budgetary encumbrances exist at year-end, they are included in the fund financial statements to reflect actual revenues and expenditures on a budgetary basis consistent with the District's legally adopted budget.

*Long-term Construction Commitments*

***Compensated Absences***

*Sick-Pay*

Under the District's various bargaining agreements and plans, professional and eligible support personnel accumulate unused sick days from year to year based on their classification. These accumulated sick days are vesting during the employee's tenure. Upon retirement, these employees are also eligible for remuneration for unused sick days under the following bargaining agreements:

- |    |  |                |
|----|--|----------------|
| 1. | Nazareth Education Association Members | - \$40 per day |
| 2. | Teamsters Union Members                | - \$35 per day |
| 3. | Support Personnel Members              | - \$25 per day |
| 4. | Administrative Plan Members            | - \$45 per day |

As an alternative to receiving remuneration for accumulated unused sick days, each eligible employee shall be entitled to a retirement severance payment calculated on criteria established in each member's respective contract based on years of service (as outlined) in the District. Each employee, per group, eligible under his/her respective agreement shall choose the option he or she wishes.

The District maintains records of each employee's accumulated sick days that are vested with employees who are eligible to retire and the number of eligible years in the second alternative. The District has recorded, as a compensated absence, the option that would result in the largest liability to the District. In accordance with GASB Statement No. 16, \$179,765 including FICA tax (net of reimbursement), which will use currently available financial resources, has been recorded in the General Fund for governmental employees, and as a current liability in the governmental activities column of the Government-Wide Statement of Net Position. The remaining sick leave termination benefit of \$5,698,435, including FICA tax (net of reimbursement), is recorded as a long-term liability in the governmental activities column of the government-wide statement of net position.

The Food Service Fund and the business-type activities column of the government-wide financial statement of net position recorded \$60,599, including FICA tax (net of disbursement) as a long term liability.

*Vacation Leave*

Unused vacation leave is paid upon an employee's termination. The District maintains records of each employee's accumulated vacation days. In accordance with GASB Statement No. 16, the portion of vacation pay earned at June 30, 2023, that will use currently available financial resources is \$107,664, including FICA tax and retirement contributions (net of reimbursement), which has been recorded in the General Fund and as a current liability in the governmental activities column of the government-wide statement of net position. The Food Service (Enterprise) Fund has recorded \$28,647, including FICA tax and retirement contributions (net of reimbursement). This amount is also shown as a long-term liability in the business type activities column of the government-wide statement of net position. The remaining vacation pay earned at June 30, 2023, of \$544,216, including FICA tax and retirement contributions (net of reimbursement), is recorded as a long-term liability in the governmental activities column of the Government-Wide Statement of Net Position.

***Summary of Significant Accounting Policies***

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS' fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

***General Information about the Pension Plan***

Plan Description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at [www.psers.pa.gov](http://www.psers.pa.gov).

Benefits Provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service.

Act 5 of 2017 (Act 5) introduced a hybrid benefit with two membership classes and a separate defined contribution plan for individuals who become new members on or after July 1, 2019. Act 5 created two new hybrid membership classes, Membership Class T-G (Class T-G) and Membership Class T-H (Class T-H) and the separate defined contribution membership class, Membership Class DC (Class DC). To qualify for normal retirement, Class T-G and Class T-H members must work until age 67 with a minimum of 3 years of credited service. Class T-G may also qualify for normal retirement by attaining a total combination of age and service that is equal to or greater than 97 with a minimum of 35 years of credited service.

Benefits are generally between to 1% to 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

**Nazareth Area School District  
Notes To Basic Financial Statements  
Fiscal Year Ended June 30, 2023**

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Employer Contributions:

The school districts' contractually required contribution rate for the fiscal year ended June 30, 2023 was 34.31% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the District were \$14,880,623 for the year ended June 30, 2023.

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

At June 30, 2023, the District reported a liability of \$121,538,700 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2021 to June 30, 2022. The District's proportion of the net pension liability was calculated utilizing the employer's one-year reported contributions as it relates to the total one-year reported contributions. At June 30, 2023, the District's proportion was 0.2793 percent, which was an increase of 0.0029 percent from its proportion measured as of June 30, 2022.

For the year ended June 30, 2023, the District recognized pension expense of \$9,420,009. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Sources</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between Proportionate Share vs Actual Paid Separately Finance Liabilities	\$ 35,374	\$ -

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

***Changes in Actuarial Assumptions***

The Total Pension Liability as of June 30, 2022 was determined by rolling forward the System's Total Pension Liability as of June 30, 2021 to June 30, 2022 using the following actuarial assumptions, applied to all periods included in the measurement:

- Valuation Date - June 30, 2021
- Actuarial cost method - Entry Age Normal - level % of pay.
- Investment return - 7.00%, includes inflation at 2.75%.
- Salary growth - Effective average of 4.50%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases.
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.
- The discount rate used to measure the Total Pension Liability was 7.00% as of June 30, 2021 and as of June 30, 2022.
- Demographic and economic assumptions approved by the Board for use effective with the June 30, 2021 actuarial valuation:
  - Salary growth rate - decreased from 5.00% to 4.50%.
  - Real wage growth and merit or seniority increases (components for salary growth) - decreased from 2.75% and 2.25% to 2.50% and 2.00%, respectively.
  - Mortality rates - Previously based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. Effective with the June 30, 2021 actuarial valuation, mortality rates are based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study that was performed for the five year period ending June 30, 2020.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

**Nazareth Area School District  
Notes To Basic Financial Statements  
Fiscal Year Ended June 30, 2023**

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

<b>Asset Class</b>	<b>Target Allocation</b>	<b>Long-Term Expected Real Rate of Return</b>
Global Public Equity	28.0%	5.3%
Private Equity	12.0%	8.0%
Fixed Income	33.0%	2.3%
Commodities	9.0%	2.3%
Infrastructure/MLPs	9.0%	5.4%
Real estate	11.0%	4.6%
Absolute return	6.0%	3.5%
Cash	3.0%	0.5%
Leverage	-11.0%	0.5%
	<u>100%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2022.

**Discount Rate**

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate**

The following presents the net pension liability, calculated using the discount rate of 7.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

Pension Plan Fiduciary Net Position

Detailed information about PSERS' fiduciary net position is available in PSERS Annual Comprehensive Financial Report which can be found on the System's website at [www.psers.pa.gov](http://www.psers.pa.gov).

State Funding

The Commonwealth of Pennsylvania generally reimburses the School District for 50%-60% of its retirement expense. This arrangement does not meet the criteria of a special funding situation in accordance with GASB standards. Therefore, the net pension liabilities and related pension expense represent 100% of the School District's share of these amounts. During the year ended June 30, 2023, the School District recognized revenue of \$7,546,491 as reimbursement from the State for its current year pension payments

Payables to the Pension Plan

As of June 30, 2023, the School District had \$5,279,792 included in accrued wages liability, of which \$3,621,901 is for the contractually required contribution for the second quarter of 2023 and \$1,657,891 is related to the accrued payroll liability for wages incurred as of June 30, 2023.

***Other Postemployment Benefits***

Public School Employees' Retirement System (PSERS) Multiple Employer OPEB Plan on Health Insurance Premium Assistance Program

***Summary of Significant Accounting Policies***

Other Postemployment Benefits

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS' fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

***General Information about the Health Insurance Premium Assistance Program***

Health Insurance Premium Assistance Program

The System provides Premium Assistance which, is a governmental cost sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2022 there were no assumed future benefit increases to participating eligible retirees.

Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age

For Class DC members to become eligible for premium assistance, they must satisfy the following criteria:

- Attain Medicare eligibility with 24 ½ or more eligibility points, or
- Have 15 or more eligibility points and terminated after age 67, and
- Have received all or part of their distributions

Pension Plan Description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at [www.psers.pa.gov](http://www.psers.pa.gov).

Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program.

Contributions

Employer Contributions:

The school districts' contractually required contribution rate for the fiscal year ended June 30, 2023, was 0.75% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the District were \$325,283 for the year ended June 30, 2023.

***OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB***

At June 30, 2023, the District reported a liability of \$5,133,598 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2021 to June 30, 2022. The District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll.

**Nazareth Area School District  
Notes To Basic Financial Statements

---

At June 30, 2023, the District's proportion was 0.2795 percent, which was an increase of 0.0029 percent from its proportion measured as of June 30, 2022. For the year ended June 30, 2023, the District recognized OPEB expense of \$198,181. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

<u>Sources</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between Proportionate Share vs Actual		
Paid Separately Finance Liabilities	\$ 1,613	\$ -
Changes in Assumptions	-	644,000
Net difference between projected and actual contributions made	-	6,369
Net difference between projected and actual investment earnings	14,000	-
Difference between expected and actual experience	19,000	-

District contributions subsequent to the measurement date	<u>325,283</u>	<u>-</u>
Total	<u>\$ 535,896</u>	<u>\$ 650,369</u>

\$325,283 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<b>Year ended June 30:</b>	<b><u>Amount</u></b>
2023	\$ (82,000)
2024	(36,816)
2025	(88,898)
2026	(99,014)
2027	(131,849)
Thereafter	<u>(1,179)</u>
Total	<u>\$ (439,756)</u>

**Actuarial Assumptions**

The Total OPEB Liability as of June 30, 2022, was determined by rolling forward the System's Total OPEB Liability as of June 30, 2021 to June 30, 2022 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method - Entry Age Normal - level % of pay.
- Investment return - 4.09% - S&P 20 Year Municipal Bond Rate.
- Salary growth - Effective average of 4.50%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases.

**Nazareth Area School District  
Notes To Basic Financial Statements  
Fiscal Year Ended June 30, 2023**

---

- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.
- Participation rate:
  - Eligible retirees will elect to participate Pre age 65 at 50%
  - Eligible retirees will elect to participate Post age 65 at 70%

The actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study that was performed for the five year the period ending June 30, 2020.

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2020, determined the employer contribution rate for fiscal year 2022.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: The actual data for retirees benefiting under the Plan as of June 30, 2021 was used in lieu of the 63% utilization assumption for eligible retirees.
- Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

Investments consist primarily of short-term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

OPEB - Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	100.0%	0.5%
	100%	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2022.

Discount Rate

The discount rate used to measure the Total OPEB Liability was 4.09%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short-term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 4.09% which represents the S&P 20-year Municipal Bond Rate at June 30, 2022, was applied to all projected benefit payments to measure the total OPEB liability.

Sensitivity of the System Net OPEB Liability to Change in Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2022, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2022, 93,293 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2022, 582 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

The following presents the System net OPEB liability for June 30, 2022, calculated using current Healthcare cost trends as well as what the System net OPEB liability would be if the health cost trends were 1-percentage point lower or 1-percentage point higher than the current rate:

	<u>1% Decrease</u>	<u>Current Trend Rate</u>	<u>1% Increase</u>
System net OPEB liability	\$ 5,144,000	\$ 5,145,000	\$ 5,145,000

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability, calculated using the discount rate of 4.09%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (3.09%) or 1-percentage-point higher (5.09%) than the current rate:

	<u>1% Decrease 3.09%</u>	<u>Current Discount Rate 4.09%</u>	<u>1% Increase 5.09%</u>

Total OPEB Liability

The School's total OPEB liability under this single employer plan of \$11,489,769, was measured as of June 30, 2023, and was determined by an actuarial valuation as of July 1, 2022.

Actuarial Assumptions and Other Inputs

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the benefits and the annual required contributions of the employer are subject to continual revision, actual results are compared to past expectations and new estimates are made about the future. The required schedule of funding progress, presented as required supplementary information, provides multiyear trend information that shows whether the actuarial value of plan Net Position is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the district and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:

	<b>Single Employer OPEB Healthcare Benefit</b>
Actuarial Valuation Date	7/1/2022
Actuarial Cost Method	Entry Age Normal
Interest Rate	4.06%
Projected salary increases	4.00% to 6.75%
Healthcare inflation rate	6.5% in 2022, 6.0% in 2023, 5.5% in 2024-2025. Rates gradually decrease from 5.4% in 2026 to 3.9% in 2075 and later based on the Society of Actuaries Long-Run Medical Cost Trend Model.
Asset Valuation Method	pay as you go basis
The discount rate is based on S&P Municipal Bond 20-year high grade rate index at July 1, 2022.	

**Nazareth Area School District

***Other Employee Benefits***

*Employee Medical Insurance*

The Nazareth Area School District is one of ten members comprising the Employee Benefit Trust of Eastern Pennsylvania. Trustees, acting as representatives of the members, manage the schedule of benefits as determined by respective members, ensure the trust is adequately funded, review claims administration and obtain excess catastrophe insurance. The Trustees have appointed independent consultants to provide the administrative services for the Trust. The accountability for the Trust's fiscal 2023, remains with the Board of Trustees. The Trust owes \$7,674,389 to the District as of June 30, 2023, for excess premiums paid.

**Note 6 - Risk Management**

The District is subject to risk of loss from employee acts, property damage, personal injury auto accidents, theft, etc. The District covers those risks through the purchase of commercial insurance. The Nazareth Area School District is a participating member of a Workers' Compensation Consortium. The consortium is comprised of 81 member School Districts which jointly self-assume their workers' compensation liabilities. Each District is required to make contributions to the consortium based on formulae set forth in the contract. Each member School District individually retains sole liability up to a retention level, which is fixed annually by multiplying its Experience Modification Factor times the last audited fiscal year payroll of the member. The result is then multiplied by a contribution rate, which is the same for all members. Even though the member school districts contribute to a central fund, they remain individually liable for any workers' compensation claims.

Above the level of retention, the consortium pays claims up to the level of coverage of \$100,000 for the year ended June 30, 2023, provided by an excess insurance policy. Claims above the maximum coverage of excess insurance are paid by the members of the consortium through additional assessments against members.

The members of the consortium are required to participate in deficiencies and are subject to periodic assessments by the Executive Committee, as required.

At June 30, 2023, the most recent available financial statements, the consortium did not have a deficit, in which the ultimate responsibility to pay for a deficit belongs to the member districts.

**Note 7 - Fund Balance Allocations**

*Nonspendable Fund Balance*

The General Fund had \$1,239,573 in nonspendable fund balance at June 30, 2023, comprised of \$111,874 of inventories on hand at year-end and \$1,127,699 of prepaid expenditures.

*Restricted Fund Balance*

The General Fund has \$328,995 restricted for contributions received, but not spent at year end.

The Capital Project Funds have \$10,371,353 of restrictions on the use of the resources at year end. The Capital Reserve Fund's \$9,991,207 fund balance at year end is restricted because of enabling legislation under the Municipal Code in Pennsylvania. Section 1432 of this Code restricts the use of resources for limited purposes.

*Committed Fund Balance*

The governing body (Board of School Directors) has committed, of the General Fund's year end fund balance for the following purposes: Compensated Absences, \$6,242,649, Other Post-Employment Benefits, \$6,500,000, Athletic Field replacement of \$1,000,000, Tax Stabilization of \$5,312,418, Future Debt Defeasance of \$2,000,000, and \$1,000,000 for other Capital Improvements.

*Assigned Fund Balance*

The General Fund has assigned \$200,000 for Facilities Capital Projects and \$1,000,000 for General Operational purposes.

**Note 8 - Restricted Net Position**

*Net Investment in Capital Assets*

The components of this restriction in the governmental activities column are total capital assets of \$123,941,617, unspent proceeds of \$1,997, with related debt of \$89,719,211, which includes unamortized bonds discounts, and premiums. The governmental activities also has \$10,369,356 restricted for capital projects. The business-type activities column reflects \$187,660 invested in capital assets with no related debt.

**Note 9 - Contingencies**

*Grants*

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and a condition specified in the grant agreements, and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund, or other applicable funds. However, in the opinion of management any such disallowed claims will not have a material adverse effect on the overall financial position of the School District as of June 30, 2023.

*Litigation*

In accordance with legal counsel, there are no legal matters that could materially affect the financial situation of the District as of June 30, 2023.

**Note 10 - New Accounting Pronouncements**

The Governmental Accounting Standards Board (GASB) has issued the following standards, which have not yet been implemented:

- Statement No. 100, *Accounting Changes and Error Corrections – an amendment of GASB Statement No. 62* - The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. Effective Date: for fiscal years beginning after June 15, 2023.
- Statement No. 101, *Compensated Absences* - The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. Effective Date: for fiscal years beginning after December 15, 2023.

**Note 11 - Subsequent Event**

*GOB Series of 2017 and GOB Series A of 2019 Debt Defeasance*

On November 17, 2023, the District deposited \$1,980,229 of available funds to be held by Manufacturers and Traders Trust Company (the Escrow Agent). The purpose of the deposit is to defease portions of the outstanding principal of the 2017 Bonds and 2019A Bonds. \$768,318 of the available funds will be utilized to defease \$760,000 of outstanding principal of the 2017 Bonds. \$1,211,911 of the available funds will be used to defease \$1,190,000 of outstanding principal of the 2019A Bonds.

Changes in Assumptions

The actuarially determined contributions, by PSERS, are calculated as of the June 30 preceding the fiscal year in which contributions are made. It does not include an adjustment made for the difference between projected vs actual contributions or separately financed liabilities. The following methods and assumptions were used to determine contribution rates reported:

- Valuation Date -- June 30, 2021
- Actuarial cost method – Entry Age Normal – level % of pay.
- Investment return – 7.00% includes inflation at 2.75%.
- Salary growth – Effective average of 4.50%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases.
- Mortality rates were based on a blend 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.
- The discount rate used to measure the Total Pension Liability was 7.00% as of June 30, 2021 and as of June 30, 2022.
- Demographic and economic assumptions approved by the Board for use effective with the June 30, 2021 actuarial valuation:
  - Salary growth rate - decreased from 5.00% to 4.50%.
  - Real wage growth and merit or seniority increases (components for salary growth) - decreased from 2.75% and 2.25% to 2.50% and 2.00%, respectively.
  - Mortality rates - previously based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. Effective with the June 30, 2021 actuarial valuation, mortality rates are based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.

Proportionate Share of the Net Pension Liability

*Methods and Assumptions Used in Calculations of Actuarially Determined Contributions*

The actuarially determined contributions, by PSERS, are calculated as of the June 30 preceding the fiscal year in which contributions are made. It does not include an adjustment made for the difference between projected vs actual contributions or separately financed liabilities. The following methods and assumptions were used to determine contribution rates reported:

- Investment return – 4.09% - S&P 20 Year Municipal Bond Rate.
- Salary increases – Effective average of 4.5%, which reflects an allowance for inflation of 2.50%, and 2.00% for real wage growth and merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.
- Participation rate:
  - Eligible retirees will elect to participate Pre age 65 at 50%
  - Eligible retirees will elect to participate Post age 65 at 70%

*The following Assumptions were Used to Determine the Contribution Rate:*

- The results of the actuarial valuation as of June 30, 2020, determined the employer contribution rate for fiscal year 2022.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

*Proportionate Share of the Net OPEB Liability*

The amount reported as the District's proportionate share of the net opeb liability (asset) does not include the adjustment for the difference between projected vs actual contributions made and the adjustment for the difference between proportionate share vs actual paid separately financed liabilities.

**Other Postemployment Benefits – Single Employer Healthcare Plan**

*Changes of Benefit Terms*

None.

*Changes in Assumptions*

The discount rate changed from 2.28% to 4.06%. The trend assumption was updated. Assumptions for salary, mortality, withdrawal and retirement were updated based on new PSERS assumptions.

*Methods and Assumptions Used in Calculations of Actuarially Determined Contributions*

- Actuarial Cost Method – Entry Age Normal
- Salary Increases – 4.00% to 6.25%
- Healthcare cost trend rate – 6.5% in 2022. 6.0% in 2023 and 5.5% in 2024-2025. Rates gradually decrease from 5.4% in 2026 to 3.9% in 2075 based on the Society of Actuaries Long-Run Medical Cost Trend Model
- Asset Valuation Method – Pay as you go basis
- Discount Rate – The rate of 4.06% is based on S&P Municipal Bond 20-year high grade rate index at July 1, 2022.

**Nazareth Area School District**  
**Notes to the Schedule of Expenditures of Federal Awards**  
**Fiscal Year Ended June 30, 2023**

---

**Note 1 - Basis of Presentation**

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of Nazareth Area School District under programs of the federal government for the year ended June 30, 2023. The information in this Schedule is presented in accordance with the requirements of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Nazareth Area School District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Nazareth Area School District.

**Note 2 - Significant Accounting Policies**

The accompanying Schedule of Expenditures of Federal Awards is presented on the modified accrual basis of accounting for all federal awards charged to governmental funds and on the accrual basis of accounting for all federal awards charged to proprietary funds, as contemplated by accounting principles, generally accepted in the United States of America.

**Note 3 - Organization and Scope**

The District recognized 2.0% of its total general fund revenue in federal awards, and 41.2% of its total enterprise fund revenue.

**Note 4 - Indirect Costs**

The District did not charge any indirect costs to any of their federal grants and programs during this fiscal year. As such, the District did not use the 10% de minimis cost rate.

**Note 5 - Program Disclosure - Footnotes**

1. The federal awards passed through the Colonial Intermediate Unit, under the U.S. Department of Education heading, is part of a consortium of participating school districts. In accordance with directions from the Commonwealth of Pennsylvania, these awards are reported on the basic financial statements as local source revenue.
2. The Federal Grants were passed through the following entities in the totals below:

<u>Passed through</u>	<u>Total Awards</u>	<u>Total Expenditures</u>
PA Emergency Management Agency	\$ 11,408	\$ 2,852
PA Department of Education	5,415,945	2,339,356
Colonial I.U. #20	1,157,536	531,101
PA Department of Public Welfare	N/A	5,697
PA Department of Agriculture	N/A	221,380
<b>Totals</b>	<b><u>\$ 6,584,889</u></b>	<b><u>\$ 3,100,386</u></b>

3. The District received non-monetary assistance from the U.S. Department of Agriculture of \$230,194, in the form of commodities. These commodities are valued at U.S.D.A.'s approximate costs. During the 2022-23 fiscal-year, the District used \$221,380 in commodities and established a year-end inventory of \$24,785 at June 30, 2023.

4. The Medical Access grant passed through the PA Department of Education is reflected as federal source revenue on the basic financial statements; however pursuant to instructions from the commonwealth of PA, it is not reported as revenue on the Schedule of Expenditures of Federal Awards.

---

**FINANCIAL STATEMENT RECONCILIATION**

General Fund Federal Source Revenues	\$ 1,618,436
Federal Grants in Local Sources	531,101
Food Service Fund Federal Revenue	<u>1,150,849</u>
<b>Total Federal Revenue, per financial statements</b>	<b>3,300,386</b>
Less - Medical Access Reimbursement	<u>(200,000)</u>
<b>Total Federal Revenue Reported on SEFA</b>	<b><u>\$ 3,100,386</u></b>

---

5. During the fiscal year 2022-23, the district received \$2,852 of monetary assistance to help the district respond to and recover from COVID-19 in 2020. The Schedule of Expenditures of Federal Awards reflects \$2,852 of revenue and \$2,852 of expenditures; however, the actual expenditures incurred and paid arose during the 2020-21 fiscal year.
6. The amount of Breakfast Program expenditures reported on Schedule of Expenditures of Federal Awards, for the 2021-22 fiscal year, was overstated by \$14,872. The opening accrual on 07/1/2022 has been reduced by \$14,872 to account for the changes needed on the prior year's Schedule of Expenditures of Federal Awards.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of School Directors  
Nazareth Area School District  
One Education Plaza  
Nazareth, PA 18064-2397

We have audited, in accordance with the auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparison statement of the general fund of the Nazareth Area School District, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise Nazareth Area School District's basic financial statements, and have issued our report thereon dated November 22, 2023.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Nazareth Area School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Nazareth Area School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Nazareth Area School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Northampton, Pennsylvania

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND  
ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Board of School Directors  
Nazareth Area School District  
One Education Plaza  
Nazareth, PA 18064-2397

**Report on Compliance for Each Major Federal Program**

***Opinion on Each Major Federal Program***

We have audited Nazareth Area School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Nazareth Area School District's major federal programs for the year ended June 30, 2023. Nazareth Area School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Nazareth Area School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Nazareth Area School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the Nazareth Area School District's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Nazareth Area School District's federal programs.

***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Nazareth Area School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Nazareth Area School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Nazareth Area School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Nazareth Area School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Nazareth Area School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

***Report on Internal Control over Compliance***

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that have not been identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

**Nazareth Area School District**

---

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
