

**July 16, 2025**

This Summer, we are partnering with **Vision To Learn** to provide free comprehensive eye exams. The results of a vision exam will indicate if your child is struggling to see clearly and if they may need prescription glasses. Good vision is important for your child to do well in school and in life. Choose an option below to help your child succeed!

#### **YOUR CHILD PARTICIPATES IN THE VISION TO LEARN PROGRAM**

You can have your child participate in the Vision To Learn program. The routine eye exam and glasses are provided at no cost!

Here's how the program works:

1. The Vision To Learn mobile clinic is an eye doctor's office on wheels. It will visit us this summer
2. A licensed independent eye doctor will provide your child a routine eye exam. The results of the eye exam will be shared with you.
3. If needed, your child will pick out glasses frames.
4. Glasses will be delivered 3-4 weeks later.
5. If applicable, vision services provided will be billed to your child's Medicaid benefits.

**Please select a time to be seen if you want your child to participate in ANY VISION TO LEARN vision services!**

#### **CONTINUE CARE WITH YOUR LOCAL EYECARE PROVIDER**

If your child already has an eye doctor and you do not need vision services from Vision To Learn, please COMPLETE AND RETURN the consent form to OPT-OUT. We encourage you to return to your doctor for continued vision care services. To find an eye doctor near you, call the 1-800 number on the back of your child's insurance card. If your child has Medicaid, the eye exam and glasses are covered by your insurance!

#### **MY CHILD HAS A VALID PRESCRIPTION AND WE NEED ASSISTANCE WITH GLASSES ONLY**

If your child has received recent care from an eye doctor, and your child needs a pair of eyeglasses, then please provide a valid prescription (exam within 12 months) from your child's eye doctor or clinic to the Vision To Learn team BEFORE our scheduled visit.

Vision To Learn will help your child as follows:

1. Your child will choose a new frame
2. Vision To Learn will order new glasses with the prescription provided.
3. Glasses will be delivered in 3-4 weeks.

Thank you for the important role you play in the health of your child. To learn more about Vision To Learn and the mobile vision clinic, please visit [www.visiontolearn.org](http://www.visiontolearn.org). If you have questions, please contact your program coordinator.

## EYE EXAMS & GLASSES

---

Your child might need glasses! This summer, the Vision To Learn mobile clinic will be here on July 16 to provide vision screenings and **NO COST** eye exams to kids who require them. If your child is prescribed glasses, they will receive a free pair of glasses!

Please sign up for an appointment time!
