| <p>1. Purpose</p> <p>2. Guidelines</p> | <p style="text-align: center;">713. TRESPASS AND DISREGARD OF SCHOOL PROPERTY</p> <p>The abuse and misuse of school property frequently causes damage, costly repairs, and endangers the health and safety of others. Specific abuses are the use of recreational vehicles that destroy property, emit noise and fuel odors, and endangers the lives of children and others; skateboards that cause similar unnecessary and dangerous situations; and animal excrement that presents unhealthy and unsightly play areas.</p> <p>The use of all recreational motor type vehicles, including but not limited to, motorcycles, snowmobiles, and three-wheel and four-wheel all-terrain motor driven vehicles are strictly prohibited from using district property at any time without special permission from the building principal or the office of the Superintendent.</p> <p>While animals are allowed on district property if properly leashed or harnessed and accompanied by owners, excrements from those animals must be removed from the property or charges may be filed against those persons responsible. Large animals such as horses will be allowed on school property only with special permission from the building principal or the office of the Superintendent.</p> <p>Skateboarding is strictly forbidden on district property at any time without special permission from the building principal or the office of the Superintendent.</p> <p>Violations of the conditions as described above and their disposition will be reported to the Board at public meetings in an effort to review appropriateness and effectiveness of this policy.</p> |
