**BOOKING SPRING/SUMMER/FALL**

# "A HIDDEN GEM"

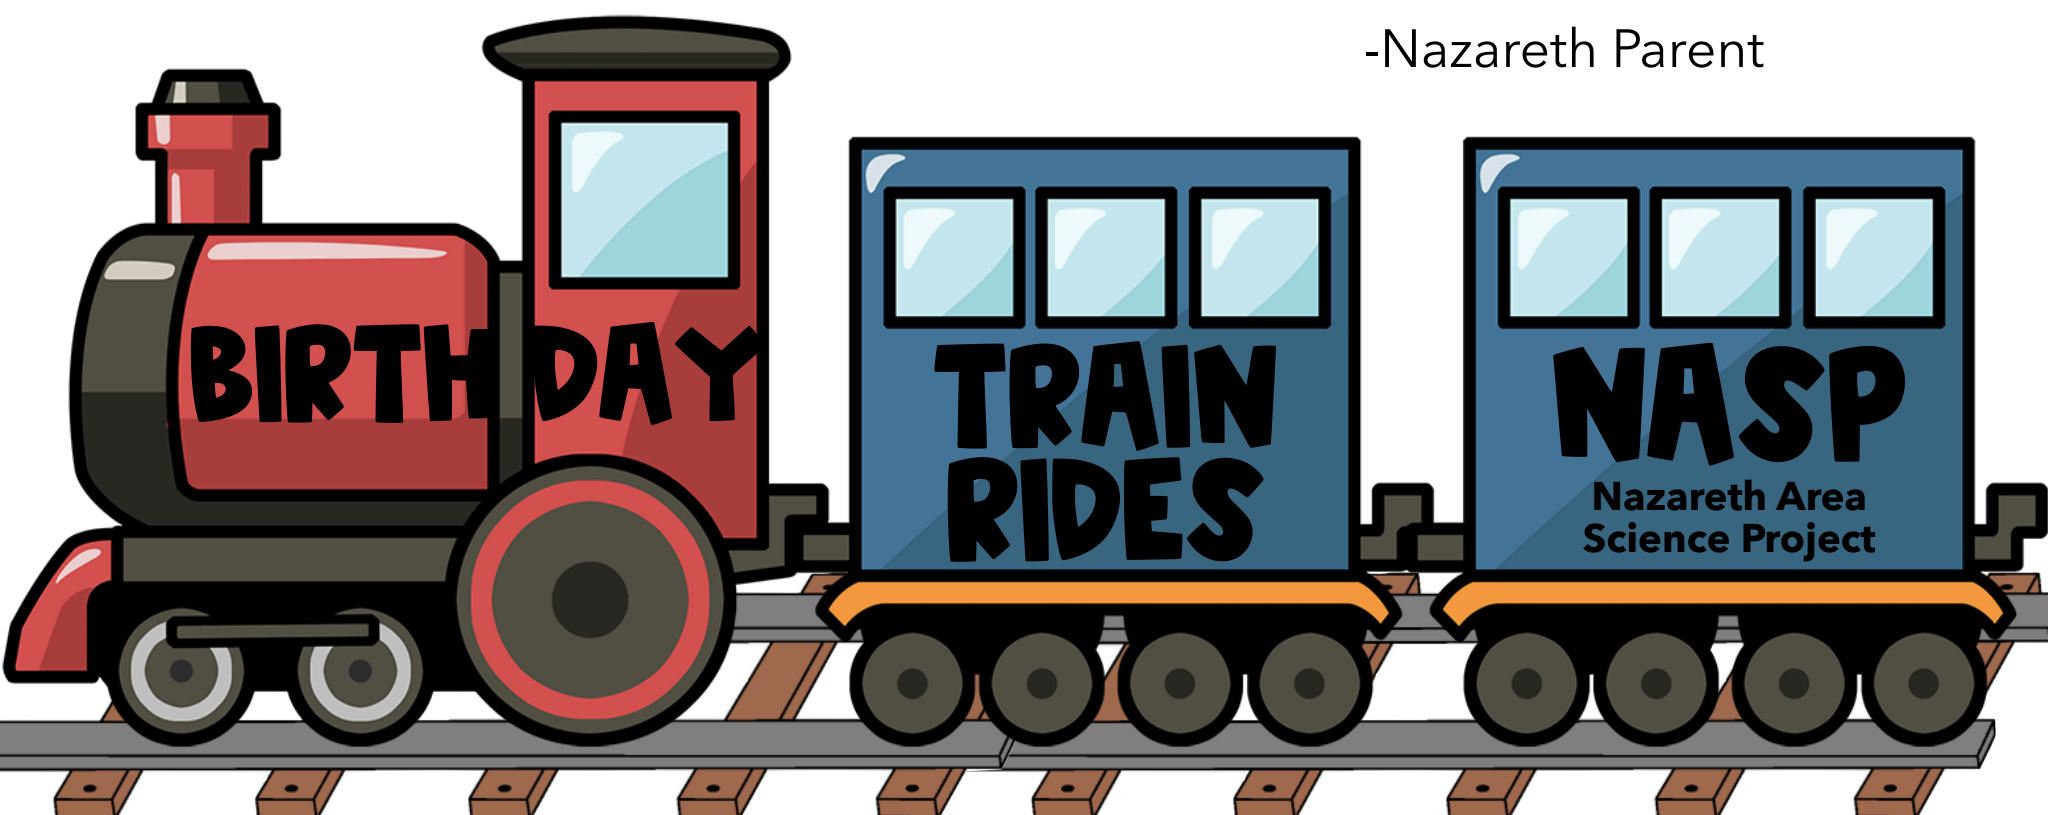

My 4 year old son smiling, in his absolute glory, riding up front as the junior conductor, of the greatest, most amazing, miniature rideable railroad! **"A real train ride Mommy!"** Yes- that's exactly what it is! A real train ride that weaves itself throughout the grounds and woodlands of the Nazareth Area Science Project (NASP), adjacent to Butz Elementary School. **It's truly the best kept secret in Nazareth!**

Planning my son's birthday party with the incredibly kind NASP crew could not have been any easier. Mr. Butz and Dr. Shoemaker were extremely flexible in scheduling a date and time and accommodated my large crowd in every way. Upon our arrival, **we loved the birthday balloons and decorations**, and the use of the pavilion and picnic tables was a Godsend! (Not to speak of the large trash cans and removal they provided.) We were able to eat pizza and have dessert right there!

Our entire group of grandparents, aunts, uncles, cousins, and friends loved the train rides. Dr. Shoemaker made certain all the kids got to ride up front as well as back in the caboose. **He smiled and catered to all the kids' requests**....as well as the big kids' requests too! I think the adults loved the hour, personal one-on-one train rides just as much as the kids did!

**Thank you Mr. Butz and Dr. Shoemaker for giving my birthday boy the most exceptional celebration he has ever had.** You never rushed us; rather, you made sure we all had that "one last train ride (or two)". Thank you for making it so easy for us to host this party. You had it all covered! Thank you for sharing this unique and amazing railroad with us. We are still talking about it! **We can't wait to plan our next party with NASP!**

-Nazareth Parent

# NAZARETH AREA SCIENCE PROJECT

# PRIVATE TRAIN PARTY REGISTRATION FORM

Date of event: \_\_\_\_\_ Time: \_\_\_\_\_

**\*\*\* Fees are for a 2 hour period which includes guest arrival, train rides, exploration in environmental center, refreshments in the pavilion (provided by party host), and guest clean up\*\*\***

**The Nazareth Area Science Project will provide:**

- A train conductor and additional attendant for the 2 hour period
- Unlimited train rides for up to 1 hour
- Education on train safety, the train itself, rail system, and environmental center/natural environment if so desired
- Use of the Pavilion Area at the environmental center during the 2 hours (NOTE: you will not have access to a refrigerator)
